

**Hazard** : Falling Objects

**Who's Involved** : All Users

**Severity** : 3

**Probability** : 2

**Risk Factor** : 6

**Control Measures** : All high level equipment is secured. Anybody on the decking and concrete footprint must wear a helmet, once people are at the top. All users are advised to keep aware of overhead activity and are advised of the safety procedures in place.

**Residual Severity** : 3

**Residual Probability** : 1

**Residual Risk Factor** : 3

**Is the residual risk acceptable?** : YES

**Hazard** : Fall or Trip on Stairs

**Who's Involved** : All Users

**Severity** : 3

**Probability** : 2

**Risk Factor** : 6

**Control Measures** : All users are instructed to walk up the staircase carefully holding the side rail and not to overtake or run.

**Residual Severity** : 3

**Residual Probability** : 1

**Residual Risk Factor** : 3

**Is the residual risk acceptable?** : YES

**Hazard** : Fall from Tower Platform

**Who's Involved** : All Users

**Severity** : 4

**Probability** : 2

**Risk Factor** : 8

**Control Measures** : All users are secured to a Safety Anchor point on the Tower platform until ready to descend

**Residual Severity** : 4

**Residual Probability** : 1

**Residual Risk Factor** : 4

**Is the residual risk acceptable?** : YES

**Hazard** : Fall whilst descending

**Who's Involved** : All Users

**Severity** : 3

**Probability** : 2

**Risk Factor** : 6

**Control Measures** : All users are secured to a safety descending rope controlled by the Instructor for the whole of the descent, in addition to their own abseiling rope. There is also a trained instructor at the foot of the tower, who will observe and provide additional support.

**Residual Severity** : 3

**Residual Probability** : 1

**Residual Risk Factor** : 3

**Is the residual risk acceptable?** : YES
