

Bemrose Centre

The Bemrose Centre is our multi-purpose indoor accommodation with a maximum sleeping capacity of 40.

Facilities include:

- fully fitted kitchen with all modern appliances, crockery, pots and pans.
- large main hall with tables and chairs
- leaders office
- toilets and showers
- 5x bunk rooms of 8 beds

Immediately outside, we have a purpose built patio area, suitable for BBQs or backwoods cooking, complete with low level evening lighting. There is full disabled access to the building and disabled facilities within, also ample leader parking in the adjacent car park.

Arrivals before 6pm

It **may** be possible for you to gain access to the building before 6pm during the week, however this **must** be arranged in advance via the campsite bookings administrator.

Food Deliveries

If you are arranging for supermarket food deliveries to site, please ensure that they have all your correct contact information and that they do not turn up on site before 6pm during the week.

It is also extremely helpful if you can let us know if you are expecting food deliveries, to let us know the name under which this has been arranged, as then we know where to direct the delivery driver when they arrive on site.

Things we ask when using the Bemrose Centre:

- Please remove all outdoor footwear in the cloak room entrance hall before entering the main corridor to the building. We suggest you advise your group to bring indoor shoes / slippers with them for while they are inside.
- Please keep the door to the shower/wet room closed while the showers are in use. This is to prevent the steam from setting off the fire-alarm system.
- Please ensure that spray deodorant is not used near the fire-alarm sensors as this too can set them off.
- No indoor ball games
- Please put a sheet and a pillow case on each bed you use and leave these in the corridor at the end of your stay.
- Please empty the bins by the end of your stay.
- Please do not mop the main hall floor - just sweep it.

In the event that the fire alarm is activated:

- All users must exit the building via the nearest available exit
- The fire assembly point is the car park at the back of the building

Please report any damage to a member of the on-duty site service team immediately.
