

Cameron Lair

The Jim Cameron Lair is our smallest accommodation building on site, with a maximum sleeping capacity of 10

Facilities include:

- fully fitted kitchen with all modern appliances, crockery, pots and pans.
- Small lounge / dining area
- toilet and shower
- 10 Bunk Beds in two rooms

Arrivals before 6pm

It **may** be possible for you to gain access to the building before 6pm during the week, however this **must** be arranged in advance via the campsite bookings administrator.

Food Deliveries

If you are arranging for supermarket food deliveries to site, please ensure that they have all your correct contact information and that they do not turn up on site before 6pm during the week.

It is also extremely helpful if you can let us know if you are expecting food deliveries, to let us know the name under which this has been arranged, as then we know where to direct the delivery driver when they arrive on site.

Things we ask when using the Cameron Lair

- Please remove all outdoor footwear in the cloak room entrance hall before entering the main corridor to the building. We suggest you advise your group to bring indoor shoes / slippers with them for while they are inside.
- Please ensure that spray deodorant is not used near the fire-alarm sensors as this too can set them off.
- Please put a sheet (which can be found under the bench seating in the lounge) on each bed you use and leave in the lounge, on the main table when you leave.
- Please empty the bins by the end of your stay observing the site recycling system as far as possible.

In the event that the fire alarm is activated:

- All users must exit the building via the nearest available exit
- The fire assembly point is on the Flag Break area, in front of the Providore

Please report any damage to a member of the on-duty site service team immediately.
